- In order to be able to deal with a possible insured event at all, it must be provable that the machine or the object in question was at the exhibition. Please take a picture of each of your exhibits and machines on it with the time and date set correctly at the time the photo was taken. Photographs of the exhibition will also be performed by the security service, we ask you to be helpful.
- In order to be able to resolve a possible insured event, it must be proven that the obstacle has been overcome, e.g. forcible entry into the cab, or damage to the chain lock securing small exhibits (eg mowers).
